

Aftercare Advice for Tinting

- Do not rub the area treated
- Avoid heat treatments for 24 hours
- Avoid the use of contact lenses for at least 24 hours after an eyelash tint
- Do not apply make-up or receive any other eye treatments for at least 24 hours after your treatment
- Avoid swimming/saunas/steam rooms for at least 24 hours after your treatment
- Avoid perfumed products for at least 24 hours after your treatment
- Please note that oil based make up remover can cause the tint to fade quicker
- Exposure to the sun/UV lights for long periods can cause the tint to fade quicker
- Try to keep your lashes dry for at least 24 hours after your treatment
- If any redness or irritation occurs apply a damp cotton wool compress. If this doesn't help seek medical advice.
