

Aftercare Advice for Waxing

- Wear clean, loose fitting clothes afterwards and stick to natural fabrics such as cotton to let the skin breathe
- Keep your bath or shower cool to lukewarm only for the first 24 hours after waxing
- Avoid saunas, steam rooms or hot tubs for 24 hours
- Avoid going to the gym or exercising for 24 hours
- Use an exfoliator between treatments to prevent ingrown hairs
- Avoid using perfumed or fragranced products on the area that's been waxed
- Don't shave or use hair removal creams in between
- Please be aware that it can take a few regular waxes to get your hair growth into a good routine so that you get smoother results for longer between treatments.
